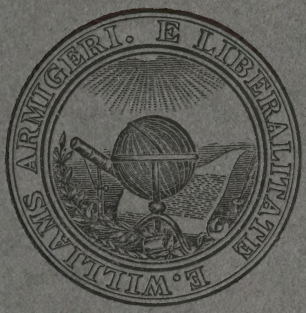
WILLIAMS COLLEGE BULLETIN



ALUMNI NUMBER

Williamstown, Mass.

Published by the College four times a year;
in November, January, April, and June.

JANUARY, 1904

Entered at the Post Office in Williamstown as second-class mail matter

WILLIAMS COLLEGE BULLETIN

ALUMNI NUMBER

COMPILED BY

Rev. E. B. Parsons, D. D.

Secretary

Published by the College four times a year; in November, January, April and June.

JANUARY, 1904

At the suggestion of Emory Washburn, a graduate of the College in 1817 and afterwards Governor of Massachusetts, the Society of Alumni of Williams College was organized September 5, 1821. The meeting was held in the Chapel which was then in West College. This was the first Society of the kind ever established.

Old Records.

THE SOCIETY OF ALUMNI

Organized 1821 Membership 2257

OFFICERS

President—Hon. William H. Swift, LL.B., Class of 1863
Vice-President—Rev. Edgar P. Hill, D.D., Class of 1884
Secretary and Necrologist—Rev. Eben B. Parsons, D.D., Class of 1859
Treasurer—Walter D. Edmonds, LL.B., Class of 1874
Executive Committee—
Harlan H. Ballard, M. A., Class of 1874
Danforth Geer, M. A., Class of 1879
Walter F. Hawkins, M. A., Class of 1884
Edgar C. Leonard, M. A., Class of 1886
and the Secretary.

ALUMNI VISITORS

1901-1904 Prof. George L. Raymond, L.H.D., Class of 1862
1901-1904 Julius H. Seymour, LL.B., Class of 1879
1902-1905 Solomon B. Griffin, M. A., Class of 1872
1902-1905 William L. Adam, LL.B., Class of 1877
1903-1906 Hon. Michael E. Driscoll, M. A., M. C., Class of 1877
1903-1906 Rev. Austin B. Bassett, B.D., Class of 1881

The Annual Meeting of the Society is held in the College Chapel on Tuesday morning of Commencement Week at ten o'clock.

The photograph of the model of the Thompson Memorial Chapel gives an inadequate impression of the magnificent edifice that Mrs. Thompson is building as a monument to her husband.

It is on the hill formerly occupied by Goodrich Hall, which had become unsafe and was taken down.

By the generosity of Trustee Stetson, Griffin Hall has been moved north and east and made into recitation rooms.

During the last summer vacation a Central Heating Plant was built at the outlet of Christmas Lake, on the old Campus, and all the College buildings are being heated from this one centre.

CENTRAL HEATING PLANT, WILLIAMS COLLEGE

CONSTITUTION

I. NAME.

This Society is named "The Society of Alumni of Williams College."

II. MEMBERSHIP.

All graduates of the College, those who receive from it an honorary degree, and others elected at annual meetings of the Alumni, shall be members.

III. ANNUAL MEETING.

An annual meeting of the Society shall be held at the College on the day preceding Commencement Day.

IV. OFFICERS.

The officers of the Society shall be a President, Vice-President, Secretary, and an Executive Committee of five members, all to be elected at each annual meeting upon the nomination of a committee of three members, to be known as the Committee on Nominations, and appointed as such by the President.

V. PRESIDENT.

The President, or in his absence the Vice-President, shall preside at each annual meeting, shall appoint the committees as herein provided, and shall in the name of the Society receive its guests, particularly the representatives present of the class graduated fifty years theretofore.

VI. SECRETARY.

The Secretary shall keep all records, and attend to the correspondence of the Society. He shall, at least two months prior to the annual meeting, mail to each member of the Society at his last known address a notice of the coming election of an Alumni-Trustee, containing the name, class, residence, vocation, and fact (if so) of previous service on the Board of each candidate, with an envelope addressed to himself, within which, sealed, each vote shall be forwarded to him. These votes he shall open, count, record and hold subject to the order of the Society. He shall not communicate the state of the ballot to any one before its final announcement at the Alumni meeting. It shall be his duty, however, as hereinafter provided, to refer to the Executive Committee all matters respecting any doubtful validity of votes.

The present direction to the Secretary says,—"He shall send out, with the voting papers for the next election, blanks which will enable each member to suggest five or less names of persons whom he would like to see nominated as candidates, and that the names of all persons who shall thus receive at least twenty-five votes be presented at the next annual meeting before the appointment of the nominating committee and referred to that committee."

VII. EXECUTIVE COMMITTEE.

The Executive Committee shall care for the general interest of the Society; shall appoint a presiding officer in the absence of both President and Vice-President, and a Secretary *pro tempore* in the absence of the Secretary; shall at its discretion secure an orator to address the Society at any annual meeting; shall act as a board of final decision to settle all question referred to it by the Secretary as to votes cast for Alumni-Trustee; and all proposed amendments to this Constitution, and all nominations to honorary membership in this Society shall be presented through the Executive Committee.

(At the request of the Secretary, in 1891, the Alumni voted that at least two of the Executive Committee should be with the Secretary at the final counting of Alumni-Trustee votes.)

VIII. ALUMNI VISITORS.

There shall be a Committee of six members to be known as Alumni Visitors, whose office it shall be to attend examinations, and be present at such other exercises of the College as may seem to them advisable at any time during the year; and also to make an Annual Report to the Society concerning the methods of instruction and discipline in the College, and the progress and wants thereof. Two members of such committee shall be elected at each annual meeting to serve for three years and shall be nominated by the Committee on Nominations.

IX. ALUMNI TRUSTEES.

At each annual meeting a committee of five members, to be known as the Committee on Alumni-Trustees, shall be appointed by the President. This committee shall nominate five candidates for the office of Alumni-Trustee for the term of five years (such candidates to be members of the Society, and to be voted for in the manner already herein prescribed), and make their reports on candidates at the Alumni Dinner. No voting by proxy shall be allowed in the election of Alumni-Trustees; the voting shall be open till noon of the day of the annual meeting; a plurality of votes shall elect; and should there be more than one vacancy in the Alumni-Trusteeship at the closing of the poll, the candidate having received the next highest number of votes shall be thereby elected to fill such vacancy.

ALUMNI ASSOCIATIONS

(For convenience the associations are designated by the central cities in alphabetical order.)

ALBANY AND TROY

President—Gardner C. Leonard, Class of 1887
Vice-Presidents—Henry F. Boardman, LL.B., Class of 1875 and Theodore E. Button, Class of 1866
Secretary—Albert V. Bensen, Jr., Class of 1901
Treasurer—Isaac H. Vrooman, Jr., p. c. Class of 1899
Annual Meeting in January.

BOSTON

President—Editor Bliss Perry, M. A., L. H. D., Class of 1881
Secretary—S. Romney Spring, LL.B., Class of 1894
Treasurer—Edward A. Watson, p. c. Class of 1897
Annual Meeting, University Club, last Thursday in January.

BUFFALO AND ROCHESTER

President—Charles B. Wheeler, LL.B., Class of 1873
Vice-President—Elbert B. Mann, Class of 1878
Secretary—George B. Barrell, LL.B., Class of 1898
Treasurer—George P. Keating, LL.B., Class of 1890

CHICAGO

President—Prof. Edward A. Birge, Ph.D. Sc.D., Class of 1873
Vice-Presidents—Prof. M. Bross Thomas, M. A., Class of 1867, Ira J. Geer, Class of 1882 and John B. Carse, Class of 1886
Secretary and Treasurer—Hon. Henry W. Austin, Class of 1888

COLUMBUS

President—Woodbury T. Morris, Class of 1892
Vice-President—George B. Kilbourne, Class of 1896
Secretary—Prin. Frank T. Cole, LL.B., Class of 1877
Treasurer—Joseph W. Jeffrey, Class of 1902
Annual meeting during the Christmas vacation.

DENVER

President—William A. Platt, M. A., Class of 1876
Vice-Presidents—Rev. Charles H. Bissell, Class of 1858, and William B. Storer, Class of 1891
Secretary—Dudley W. Strickland, LL.B., Class of 1896
Treasurer—George W. Humphrey, LL.B., Class of 1896

HARTFORD

President—Hon. Samuel E. Elmore, Class of 1857
Vice-President—Martin H. Smith, Ph.D., Class of 1857
Toastmaster—Rev. John G. Davenport, D.D., Class of 1863
Secretary and Treasurer—Charles S. Stearns, p. c., Class of 1893
Meeting and Banquet in January.

MINNEAPOLIS AND ST. PAUL

President—Hon. Franklin A. Rising, M. A., Class of 1864
Vice-President—Hon. O. Matson Hall, M. C., Class of 1868
Secretary and Treasurer—John T. Baxter, LL.B., Class of 1887

NEW YORK CITY

President—Frederick B. Jennings, M. A., LL.B., Class of 1872
Vice-Presidents—John Tatlock, M. A., Class of 1882,
and Bainbridge Colby, LL.B., Class of 1890
Secretary—Francis S. Hutchins, LL.B., Class of 1900
Treasurer—James C. Rogerson, M. A., Class of 1892
At Delmonico's—Smoker Dec. 11, 1903, Dinner February 10, 1904,
Smoker and Annual Meeting April 15, 1904.

PHILADELPHIA

President—Dr. James F. Stone, M. A., Class of 1861
Vice-Presidents—Supt. John B. Chapin, M. D., LL.D., Class of 1850,
and Lewis C. Lillie, Class of 1859
Secretary and Treasurer—William K. Miller, Class of 1901
Annual Meeting third Thursday in February.

SPRINGFIELD

President—Henry K. Hyde, Class of 1887
Vice-Presidents—Dr. Edward B. Nims, M. A., Class of 1862,
and Rev. John H. Lockwood, M. A., Class of 1868
Secretary—Rev. D. Butler Pratt, Class of 1883
Treasurer—Frank J. Demond, LL.B., Class of 1882.
Annual Meeting in October.

SYRACUSE

President—George W. Driscoll, LL.B., Class of 1881
Secretary—Charles W. Wood, M. A., Class of 1884

WORCESTER

President—Rev. Willard Scott, D. D., Class of 1875
Secretary—Horace G. Brown, Class of 1896

MEMBERS

ABBREVIATIONS: Rev., clergyman; Dr., physician; law., lawyer; jour., journalist; bank., banker; tea., teacher; far., farmer; elec., electrician; civ. eng., civil engineer; manf., manufacturer. When nothing is designated the vocation is some other business.

CORRECTIONS: Each year every graduate is invited to vote for a Trustee, (Constitution, Article VI) and is requested to give any change of address.

SOMETIME MEMBERS: When they express a wish to be enrolled and their correct addresses are given, their names are entered in alphabetical order under the line after each class list of graduates.

Please notify the Secretary of any error in this book, and of any change in residence.

Alumni Visitors Report

Presented at the Annual Meeting of the Society June 23, 1903.

To The Society of Alumni of Williams College :

Gentlemen :—

The Constitution of the Society defines the office of the Alumni Visitors in general terms as being :—

"To attend examinations, and be present at such other exercises of the College as may seem to them advisable at any time during the year, and to make an Annual Report to the Society concerning the methods of instruction and discipline in the College and the progress and wants thereof."

There has been no opportunity for the Board to visit the College in a body, and this was probably not contemplated, but the practice apparently is that a designated member shall visit the College, with the others if possible, and if not, alone, and I was requested by Dr. Parsons, Secretary of the Alumni Society, to make the report this year. I therefore recently, at the invitation of the President, had the pleasure of a short visit at the College, and was given a cordial reception, and every facility for inquiry and information by both the President and those members of the Faculty whom I interviewed, and from correspondence with the other members of the Board who have visited the College from time to time, and who offered many excellent suggestions, I beg to submit the following report :—

DISCIPLINE.

It will be a great pleasure to the Alumni to know that Dr. Hopkins seems to have won the hearts of the students, and that a pleasant and cordial feeling has existed during the year between the students and Faculty. The affectionate regard of the President for the welfare of the students has been reciprocated in loyal good feeling, an earnest desire to please, and to perform good and faithful work. There has been no trouble with individual students, or between classes, but a high standard of honor, deportment and scholarship has been attained, and the condition of the College to-day in this respect is

admirable, while the moral and religious life of the students has been excellent.

This must be a source of great satisfaction to Dr. Hopkins in this trying year of his new office, and he has been fortunate in having the efficient services of Dr. Ferry the Dean of the Faculty in bringing about such a happy condition.

INSTRUCTION.

The new curriculum goes into effect this fall, and its working will be watched with great interest. Williams has already departed far from the old plan of a fixed course of study.

The able report of President Hewitt last year discussed this subject most thoroughly, but the new curriculum adopted since then has effected still more radical changes. It is certainly questionable whether in a small College, such as Williams, so much latitude should be given to students in selecting their educational course. A study of this new system will probably surprise many of the older Alumni. Under it a man can go through College and obtain his Degree without ever taking any course either in Philosophy, or in Political Science, or in History, whatever; that is, he can omit any one of them entirely. And by taking a year of Italian and a year of Spanish he can entirely discard all English studies, and French and German, and all the Classics, after Freshman year, unless he brings Greek on entrance examinations, when he must follow a Classic for a year. Any one of the three leading sciences of Chemistry, Biology, or Physics, can be entirely eliminated from the course, and if he elects Mathematics, all three can be omitted. The only check upon the system is as to the required groups, and is substantially the plan followed at Yale and Dartmouth, while Harvard has no checks whatever. Whether this plan in practice will give the student such a rounded and uniform education as the old system of a carefully selected course of study for all students in all subjects, or even the partially elective system, will be the most serious question for the Faculty and Trustees to consider in the future. It has many advantages in concentrating work in special lines, and, by omitting requirements in other studies, giving more time to the elective courses. But on the other hand who is to guide the young student in selecting his electives? Will he not travel along the line of the least resistance, and select one course in preference to another because it is easier, not because it is what he ought to know, or where mental discipline will be of the most benefit to him. As Professor Russell very wisely said to me, "It is

much to be feared that it will not be the intrinsic character of the subject and its relation to his own mental training, but secondary considerations, which will govern the choice of the student."

Very few students in the earlier years of College life have any idea of what they will do on leaving College. Is it wise to allow them without judicious advice to select a technical course of study which may land them at a useless terminus, and perhaps omit the most necessary elements of their finally selected life work? Then too, they will choose courses for reasons far removed from proper judgment.

A popular subject or unpopular professor in a subject may attract or repel a student in selecting that course, and it does, which, of course, throws just so much more work on the popular professor, or popular subject. The hours of recitation may interfere with their desire to play, and where they are living in little communities, as the Chapter Houses, it will be found that they generally will all be influenced to go together into about the same selection. None of these things which do actually determine their college course have any business to do so, and although undoubtedly, the Faculty and the President, as far as they can, will counsel and advise a student as to his college work, the time has now come for every parent who has a son in an American College, and who has proper education and future at heart, to at once take a hand in directing it. Boys can no longer be sent to college with the feeling that a wise general course has been planned for them to follow until they emerge as all around well educated men, but with these new elective courses there would seem to be great danger that a young man will graduate with an imperfectly built, one-sided and unsatisfactory result, although it is claimed that the new curriculum with its requirements in three groups and 32 semester hours of widely different Sophomore courses will prevent this danger and that on the contrary it was designed to remove this particular danger which had become highly developed under the old system.

In this connection a proper steering committee might be formed to help the undecided and helpless student in the great responsibility of his selection.

A feature of this elective course and which is continued under the new curriculum (which only shows that that elective system at least was radically wrong) I do not think has been generally appreciated: Under it a man can complete his college course and take his degree in three years. That is, he can anticipate certain required courses by attaining 75% on entrance, and then anticipate certain other courses by extra work, and by passing 75% in a special examination, have those required hours credited on the total 62 hours required, and divide the remainder among three years of class room work, but

one is not allowed to do this unless he is a very good student, and Williams has already graduated an average of two or three men a year by this method while in other elective colleges it has long been customary.

As to specific studies, it would seem that the elimination from the required courses of those two great courses of mental training, viz., Philosophy and the Greek language is to be regretted. The fame of Williams arose largely through the magnificent Philosophic training of Mark Hopkins, and the influence of his masterly exposition of those lofty subjects is one of the most cherished memories of all who sat under him. And as to the study of Greek, the quotation by President Hewitt of President Hadley upon this subject is most excellent. He said,

"For while there is a considerable group of boys who desire to be rid of Greek for good and wise reasons, the real reason for most of the dislike is the fact that it is hard. So far as this is the ground on which change is sought, the college that resists this change will gain in quality more than it loses in numbers."

The eliminating from the required course (which however took place ten years ago) of the great classic language, to the teaching of which Professor Fernald devoted his life work of thirty years in this College, is regretted by many.

An excellent suggestion has been made by Professor Raymond as to a method of teaching Physics, Astronomy, and other Sciences so as to give the great facts of those sciences without the Mathematics to certain of the students, and to have a more thorough course with the mathematics for others. This would meet modern requirements, for while all need to know the great facts, comparatively few can understand the mathematics; so with Philosophy, all should study its principles and learn to think, but few need to study its history, to do so only confuses them.

GROWTH OF THE COLLEGE.

THE WANTS AND NEEDS of the College are many and various. We are outgrowing our resources. Many of our buildings are antiquated, and other similar Institutions are outstripping us in better facilities and equipment, and in paying higher salaries to their staff.

The following are a few suggestions as to how we might spend the money if we had it, or perhaps use to advantage some of what we already have.

If the number of students is much increased there will be need of more instructors, and more dormitories. We now have 348 students, but

the entering class is said to number more than 150.

The courses in Freshman year are mostly recitations; while in later classes they are lectures, not requiring individual recitation, but in all courses where recitations are required, small classes are preferable, as more opportunity is given to each student. This means that the classes in Freshman year will require more divisions than formerly, as for instance in mathematics, 150 men should be divided into five classes of 30 men each for recitation work, so they can be accommodated at the blackboard, and therefore instead of three, there should be five instructors in this course, and so in the other courses requiring a division of classes.

RENOVATING WEST COLLEGE.

As has been said, the number of students is increasing very rapidly, and the College is even now impeded for want of room. At present Morgan and Jesup Halls are full, as are all decent available rooms, but the poor and antiquated accommodations of old West, South and East Colleges are scarcely rentable; they do not attract the students, who prefer to, and do rent rooms of private families outside, paying more, or clubbing to reduce expenses. The College buildings are neglected, and the great growth of Society Houses has taken still more from the proper College sources of income. At present there are eleven Chapter Houses in Williamstown; more probably than in any other College of its size in the country, and probably a hundred students prefer the more isolated life in them, than what would undoubtedly be a more beneficial life in the College buildings, because the accomodations are better there. West College commands one of the finest and most accessible sites in Williamstown. Although 113 years old, the building is in good condition, and could probably at a moderate expense be put in excellent rentable condition. New windows and glass, and stairways, baths, and open plumbing, and hot and cold water, and steam heat from a central plant would revolutionize the building, and form a profitable investment. The last Treasurer's Report showed we had invested all in Railroad bonds, Railroad stocks, and Bank Stocks, about $750,000. paying 4 24-100 % on market value.

The total rent roll of West College, if full, is only $1136. a year; that of East College, $1184. and South College, $528. or a total of a possible rental from these three large dormitories in their present condition of only $2,848. with 69 suites. But they are not all rented, and it is doubtful if the income exceeds $2000. from them all. Morgan Hall alone rents for $4908 with 36

suites or three times all of them put together, and yet there are 33 more suites in them than in Morgan Hall.

Would it not be a wise investment to put some of this 4¼ % income money into increasing the accommodations of the College for students, and at the same time obtaining a large income from it?

This is exactly what they have accomplished at Dartmouth, Lafayette, and Bowdoin, who have found it paid a good return as an investment.

*A CENTRAL HEATING AND LIGHTING PLANT.

A more economical method of heating by a central plant should be examined into. At present we have, or will have, seven different complete independent boilers and heating apparatus, in the Gymnasium, Chapel, Morgan, Jesup, Hopkins, Thompson, and new Chapel, at great inconvenience, waste and expense. A modern central plant, located somewhere under the hill, so the smoke would not be a nuisance, and which could furnish steam and hot water to each of the twenty or more buildings owned by the college, would seem more economical and efficient, and heat and light could be sold to the houses used by the Faculty and possibly others; and if West, East and South Colleges were renovated, the additional expense would not be large. This plan is practicable and feasible, for both Bowdoin and Dartmouth have lately installed just such plants for both heat and light, and it has proved an immense success. I have corresponded with the Presidents of both Institutions on the subject.

President Hyde of Bowdoin says "Their plant cost $50,000. and they have saved about enough on it to pay the interest on the investment, and there has been a considerable gain in neatness and convenience of heating and lighting, but beyond the amount represented by interest on the investment, there has been no considerable saving in expense, but they were glad to have it, and would not go back to the old plan of separate heating."

President Tucker of Dartmouth replied that "They established their plant in 1898, and are now heating 22 buildings through 5000 feet of underground mains, using K. and M. split conduit system, which is probably one of the least expensive, and has proved very efficient. The total investment was about $60,000. A great saving was effected, not only in the fact that considerable less coal is consumed, but the central plant allows the use of bituminous instead of anthracite coal, saving two dollars a ton in cost."

Both as an investment, and for far great security, convenience and comfort, the plan would seem practicable.

*Mr. Seymour made this careful study of the matter before he knew that the Trustees had voted for the Plant that is now in service. *Secretary.*

WATER PLANT AND SEWER.

The College is to be congratulated upon having a supply of fine pure water fed from three living springs which are beyond reach of contamination, and the town is well sewered with a main sewer running to the Hoosac River.

The water supply however is furnished by the Williamstown Water Company, a private corporation, and for which the College pays $1,000. water rent a year. The springs forming the supply are the Cold Spring, beyond Stone Hill; and the Sherman Spring on Prospect Mountain. The supply however, with the growing college and town is inadequate, and during the recent severe drought it was very short, the use of a hose being prohibited, and it may be only a question of time when larger works may be necessary. Whether it would be wise for the College to invest in such a plant for its own use, and to sell water to the townspeople would bear investigation.

This plan has been undertaken by Dartmouth College which built its own plant and reservoir at a cost of $40,000. with excellent financial results, and resulting in a complete safeguard against a water famine and fire.

In this connection it might be observed that the College pays the town in addition to the hydrant water tax, a Fire District tax of $860.07 per annum. The Fire Company is an unorganized volunteer company, and fortunately we have never had a serious fire. In some of the colleges and large schools an independent fire company is organized among the students, with their own engine and apparatus, fire drills &c., which not only adds picturesqueness, but safety to a possible conflagration. An additional engine and crew would do no harm, and might be of great service. The present fire alarm is an electric attachment on the Congregational church. A modern electric fire alarm connection with each building would be more modern.

A COLLEGE INN.

Another growing need is a College Inn; not a Hotel, but a moderate, pleasant, comfortable Inn, which will be kept open throughout the winter, and accommodate at moderate prices the many persons desiring to visit the College and students. The only hotel in the village at present is the "Greylock" which closes in winter, and opens in summer with high rates to summer people, and with little consideration for the college patronage or needs. For instance, at this Commencement every room in the entire hotel was engaged far in advance, and no provision whatever made for the accommoda-

tion of the Board of Trustees, or other distinguished guests.

A commendable feature of the Inn might be a decent restaurant and grill room for student's use, and possibly a dormitory.

In this connection it might be a good plan for a Bureau to be organized to whom applications for rooms and board at Commencement and other times might be made, and which would add much to the comfort and convenience of visitors.

LANDSCAPE GARDENING.

A great opportunity exists for still further beautifying the College grounds in an artistic and attractive manner. No institution in this country is endowed with more naturally beautiful surroundings than Williams College, and at a comparatively small outlay, under the direction of a competent landscape gardener, a still more lovely environment could be added. The hill back of South College and the Library, towards Christmas Lake, instead of being a semi-pasture, could be converted into a Park,—with terraces, seats, walks, shrubbery &c., which would add greatly to the outdoor enjoyment of student life, and so could also the edge of the hill now back of Griffin Hall, and the waste places in other parts of the campus could be greatly improved by walks, roads, grading and tree planting. It is doubtful if the wall of masonry confronting the traveller at the Western end of the Main Street is as attractive as a smooth lawn would be, gently undulating over the brow of the hill, leaving a vista of the majestic mountain range towards the West.

It is these things which make a place attractive, and which linger in the memory of after life.

PROFESSORS' HOUSES.

Another form of investment which the College could profitably make and at the same time benefit the plant and increase its efficiency, would be to build several more houses for the Members of the Faculty. At present the College owns and rents to Professors, six houses, including the President's: Eight of the Faculty own their own houses, but seven of them are compelled to rent from strangers, either because they cannot afford to buy or build, or there is no College house to rent; thus they come into competition with the market and are obliged to pay a higher rental, while in many cases those owning their houses, or renting them yearly from the College, have the privilege of subletting during the summer, and appreciably increasing their incomes, while the other's have not, and thus there is a more or less unfair discrimination.

MORE LAND.

The large increase in land values in Williamstown, the growth of the town itself, and the acquisition of many of the finest available building sites by the various Chapter Houses, will soon render it costly and difficult to acquire any more land for the future development of the College needs. If an opportunity offers to purchase centrally located property for a reasonable sum, the College should at once buy it before it is bought by others and improved upon. Several good bargains in the past have been lost, which are now sadly needed.

SALARIES.

The subject of raising the professsors' salaries has not been fully touched upon, as this necessity has already been brought to the attention of the Alumni. The highest salary paid is only $3,000. a year, and only four professors receive this sum; thirteen of the remaining Professors, Instructors and Assistants receive between $2,500. and $2,000. a year; eleven receive between $1,500. and $1,000 a year, and eight between $800. and $450.— a total of $79,855. which about equals the amount received directly from the students for tuition and rent. These salaries are small and should be increased, and the recent munificent gifts of Mr. Stetson, Mr. Jennings, and others, and of various classes will have helped this matter materially.

From all these needs and wants, many of them desirable, and some of them urgent, it will be seen that the College requires more money to properly carry on its work with moderate, equipment and living salaries; and to enable it to maintain its high rank among similar institutions.

Although we have tried to show the conditions of the College as we find them, and have dwelt more particularly with its physical needs, it must be remembered that Williams is not alone in these requirements, but these are conditions which prevail in greater or less degree in every college in the country, indeed, we are fortunate in being completely out of debt, under which burden many larger institutions are laboring.

It is also a subject of great pride and congratulation that Old Williams, in spite of all these limitations, should have steadily contributed to the intellectual growth and development of the country for over a century of an illustrious and honorable career, until her graduates are found in every section of the Union, from the Atlantic to the Pacific, and many of whom have

taken high rank in the Professional, Literary and Commercial walks of life, and that her scholarly influence and material prosperity was never higher than it is to-day.

It is a great honor and privilege to have graduated from Williams College, and to have received the moral and mental stimulus of her teachings and training, and it is hoped that the love of the Alumni for the College and recognition of her splendid educational work will enlist the royal support of all those who desire to see the continued growth and prosperity of their beloved Alma Mater, and appeal to those who would maintain an institution which is doing so much towards the culture and education of young men who are destined to be the future strength of the country.

Respectfully submitted,

JULIUS H. SEYMOUR.
